

SOILED FEATHER ASSESSMENT (STEPS 5 and 5+)

Date: _____
 House ID: _____
 Flock ID: _____

Flock age (in weeks): _____
 Flock Size (when placed): _____
 Breed/Strain of hens: _____

Score 0	Score 1	Score 2
Clean	Moderate dirtiness	Substantial dirtiness
The bird is clean.	There is soiling on at least one part of the bird but it is < 2" (5cm).	There is soiling on one or more parts of the bird and the area is ≥ 2" (5cm).

Protocol:

- Step 5 and 5+:** Assess each flock monthly
- Randomly select 5 hens from 10 different locations throughout the house or pasture for a total of 50 hens
- Visually assess one side of the hen, not including the legs and feet
- Record the score in the table below
